

### Know Your Traffic Laws

Requests of Jack P. Crowther, superintendent of Los Angeles City Schools, for motorists to redouble their efforts to assume maximum safety for the thousands of pupils returning for the start of the new school year deserve attention of all Los Angeles area motorists.

"All efforts of our school people, safety organizations, and law enforcement agencies in trying to instill safety will go for naught if individual motorists and parents do not cooperate," Crowther said.

For the motorist, the superintendent asked that all possible caution be used in school neighborhoods and on routes customarily used by students coming and going to school.

**FOR PARENTS,** he stressed that the success of the program depends on their ability to impress their children with proper safety habits, either walking or riding a bicycle to and from school.

Other tips offered by the school executive should be of interest to those parents transporting their children to and from school.

1. Have children sit well back in the seat to insure safety in the event of sudden stops.

2. Have car doors closed tightly and locked; prevent children from playing with door handles.

3. Be overly cautious when approaching school; watch for youngsters running into the street.

4. Have a designated location where the youngster is dropped off and picked up each day.

5. Have this prearranged spot on the school side of the street only; do not permit children to cross mid-block or from between parked cars.

6. Have respect for all traffic laws and school regulations; their observance contributes to the safety of all youngsters.

**PARENTS ALSO** were cautioned to select a safe route to school for children close enough to walk. Parents should walk the route with their children at least once to point out hazards and dangers to avoid.

Crowther said children walking to school should be reminded of the importance of crossing only at marked crosswalks, to look both ways and make sure the road is clear before crossing, to cross only on proper signals, never to go into the roadway from between parked cars, and where no sidewalk is provided and it is necessary to walk in the street, to walk on the left side facing traffic.

### Radio Show Will Feature Rabbi Unger

Rabbi Jerome A. Unger and the Temple Menorah Adult Choir will appear on "Church of the Air" Sunday.

Rabbi Unger, spiritual leader of Temple Menorah, will speak on "The Symphony of the Spirit." Cantor Harry Newman will be featured with the Temple choir, directed by Mrs. Fay Newman, who will present music from the High Holiday Service.

The High Holy days begin on Wednesday, Sept. 18 for the Jewish faith.

"Church of the Air" is presented by KNX from 8:00 to 8:35 a.m.

### Safety Council Sets Series of Monthly Lunches

A series of monthly "Safety Luncheons" will be held by the Torrance Safety Council beginning Oct. 1, according to spokesmen for the council.

Luncheon topics will include "Back to School Safety," "Holiday Hazards," and "Bicycle Safety." The programs are planned to inform residents of the measures needed to increase traffic safety.

The council also announced that the American Automobile Assn. will make a special presentation to Torrance, Oct. 1, for its active campaign to eliminate pedestrian accidents.

The rocket, oldest propulsion instrument known to man, was used by the Chinese as a weapon as early as 1232 in defending the city of K'ai-Fung-Foo against the invading Mongols.
